Mobile and Wireless Data Security *Assignment 6*

Författare: Your NAME
Examinator: Teachers NAME
Termin: VT2017
Ämne: CS
Kurskod: 0DV700

Contents

1	Template	1
2	Citations	1
3	Math	1
4	Code	1
5	Tables	1
6	Images	2
7	Other	2

Contents

1 Template

This is just a template that can help you create nice looking PDFs from your Emacs Orgmode document.

2 Citations

Look at [org-ref](#) for doing citations and references.

3 Math

No problem to use math stuff.

$$x^n + y^n = z^n$$

$$\sum_{i=1}^n i^2 = \frac{n(n+1)(2n+1)}{6}$$

4 Code

Code blocks

```
for i in range(0, 10):  
    print(i, end=',')
```

5 Tables

Tabell 1: Random stuff

a	b	c
1dv702	1dv703	1dv704
LNU	LNU	LNU
KOD	KOD	KOD

6 Images

Figur 1: Kodkolektivet logo

7 Other

As you see most of the stuff are working good. If you find this interesting and wanna know how to use it. Please contact us at our Slack channel, <https://kodkolektivet.slack.com/>
